RADEON HD 5850

Prepare to experience a riveting high-definition gaming experience with ATI Radeon™ HD 5800 Series graphics processors. 1 Expand your visual real estate across up to three displays and get lost in the action with revolutionary ATI Eyefinity Technology. 2 Using ATI Stream technology, accelerate even the most demanding applications and do more than ever with your PC. 3 The first to deliver full support for Microsoft DirectX® 11, these GPUs enable rich, realistic visuals and explosive HD gaming performance so you can dominate the competition.

Maximum Features... Maximum Performance!
Our Centurion Gaming PC's with AMD Phenom II 4 and 6-Core processors are multi-tasking champions. Significant improvements in system responsiveness are possible because certain tasks can be off-loaded to specific cores. Users can now take on several tasks at once, such as rendering a video, playing games, or working on basic productivity software, because additional processor resources are free to handle other tasks.

The Centurion is equipped with the ATI Radeon HD 5800 series graphics processor to improve system performance bringing the power of graphics 'supercomputing' to you, and setting a new standard for visual computing. Redefine the way you play and take HD gaming to the extreme with best-in-class graphics performance enabling game-dominating power!!

Included with the Centurion system is the CoolerMaster P100 performance chassis with dual 12 cm fans. The Centurion is Multimedia ready with 6 Rear USB 2.0 and 2 Rear USB 3.0 plus 2 Front USB 2.0 external ports, High Definition Audio with Digital Audio port, and Gigabit LAN.
