

iPRO

Gamer Series

System is not exactly as shown.

Our new iPRO Gaming PC with an Intel® Core i7 Quad Core processor is Intel's, fastest and most feature-rich generation of desktop CPUs. Built on advanced technology that automatically applies processing power where it's needed most, the Intel Core i7 processor's incredible speed and efficiency lets you multitask faster and delivers an amazing multimedia experience.

Intel Core i7 processors deliver an incredible breakthrough in quad-core performance and feature the latest innovations in processor technologies. Intel hyperthreading technology allows the operating system to utilize up to eight simultaneous computing threads.

NINE Gigabytes of triple channel DDR3 memory coupled with an integrated memory controller provides unprecedented memory throughput. Video excitement is generated by the ATI HD5850 1GB video card.

These high performance components are supported by the Asus P6T Deluxe Mainboard which adds features such as dual Gigabit LAN, up to 14 usb ports, Firewire, eSata, High Definition Audio with SPDIF digital output, and nVidia SLI and ATI Crossfire support.

The sleek black Coolermaster Chassis has the coolest external Sata Bay, sophisticated looks with ample air flow and a high quality 700W power supply ensures long and reliable operation. This is what makes the iPRO our best and fastest Multimedia Computer.
